

## *A Center for Creative Change*

3537 Old Conejo Road, Suite 113  
Newbury Park, CA 91320 - (805) 499-8511

To: The Ministry of Health, Israel, Dept. of Psychology Licensing  
Letter of Recommendation for Edward Sheldon, Ph.D.

11/15/2004

To Whom It May Concern:

I am the Clinical Director and supervisor of interns of A Center for Creative Change, a non-profit community counseling center, in Newbury Park, California.

Dr. Edward Sheldon asked me to write a letter of recommendation for him, and I am delighted to do so. Dr. Sheldon was the Clinical Director and Supervisor of the Westside Counseling Center, in Santa Monica California, a non-profit community center, which offered many services to the Los Angeles community. Included were: adult, marriage, family and child counseling, psychotherapy, group psychotherapy, support groups for women, support groups for teens, services to facility bound geriatric patients, vocational counseling, parenting classes, and educational programs for professionals and the community.

I know Dr. Sheldon personally and professionally, more than twenty years. I can assure you that his work is excellent – both as a psychotherapist and as a supervisor. He supervised many interns, from a number of colleges and universities and was responsible for hundreds of patients who were helped at the Westside Counseling Center (1985-1988). His interns were happy to be part of the center.

Dr. Sheldon has a lot of knowledge and experience in a number of areas, which he integrates in his work. He has more than twenty five years experience working as a psychotherapist with an excellent reputation and a busy practice. He was considered to be one of the best clinical and medical hypnotherapists in the Los Angeles area. He knows how to work in many modalities (gestalt, psychodynamic, family systems, creative arts therapy, etc.) He is a talented educator and workshop facilitator as well.

Please extend to him every consideration as a new immigrant who is very experienced and who has a lot to offer.

Sincerely,

Barbara Dobrin, Ph.D.
