RE: Letter of recommendation for Edward Sheldon, Ph.D.
(soc sec number: 059-44-1217)

23 November, 2004

Dear Department of Psychology Licensing,

I am writing this letter as a recommendation for Dr. Edward Sheldon. He is a qualified, experienced, and accomplished Medical Psychologist. I am a licensed physician since 1972, and have been practicing Classical Five-Element Acupuncture since 1979.

I first met Dr. Sheldon in 1985, when I began working at Integrative Health Services, in Santa Monica, California, a center specializing in behavioral medicine, of which he was the Director. I continued to work there for approximately one year, at which time I left to open my own office.

Dr. Sheldon's vision was most impressive. His practice was that of an integrated team approach to health care, combining his work in psychotherapy with a specialty in behavioral medicine, with the work of other health practitioners, such as acupuncturists, nutritionists, and biofeedback specialists, to create an holistic and effective treatment plan. He held staff case meetings, and he would supervise the staff in the use of behavioral modalities, e.g. hypnosis, biofeedback, etc.

I recommend him to you, that he may continue his work - as psychologist, supervisor, and teacher - in Israel.

Please feel free to contact me if you have any questions.

Sincerely,

Eliot Ivanhoe, M.D.
