RE: Professional Recommendation of
Edward Sheldon, Ph.D.

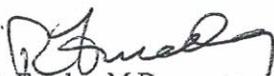

Dear Committee,

I highly recommend my colleague Edward Sheldon, Ph.D. I have referred a number of my patients to him during the years 1984-1990 when he practiced in Santa Monica and Los Angeles, California. Dr. Sheldon helped my patients with hypnotherapy and psychotherapy for hyperemesis, premature labor, smoking, obesity, and family therapy. My patients were happy with his work. Many of my OB/GYN colleagues also referred patients to Dr. Sheldon, and were pleased with his work.

He also taught helpful courses for medical practitioners in hypnosis, holistic medicine, stress management, and other topics, and did fine work at Santa Monica and St. John's Hospitals.

Although he had a successful twenty year practice in Los Angeles, his deep commitment to Judaism, the Jewish people, and Israel motivated him to bring himself and his family to Israel. I hope that you will give credit to Dr. Sheldon's good reputation, many years of excellent work, and the good person that he is, and help him to achieve his professional goals of licensure in Israel. I am sure he will contribute positively.

Sincerely,

Richard P. Frieder, M.D.
Clinical Instructor
Department of Family Medicine
Department of Obstetrics and Gynecology
UCLA School of Medicine
