Re: Filming Hypnosis in Childbirth

Dear Dr. Sheldon:

Please accept this letter as confirmation of my secretary's conversation with you yesterday, and the Hospital's approval of the following:

1. You may begin filming at the Hospital after making necessary advance arrangements with Connie Tanquary, R.N., Director of Maternal & Child Health.
2. Reference may be made at your talk to the fact that filming was done at Santa Monica Hospital Medical Center, but no other reference shall be made in any other respect to the Hospital.
3. At your earliest convenience, please file a Staff Application with the Hospital so that you would be able to continue to see referrals in the Hospital. No reference should be made to any relationship to Santa Monica Hospital Medical Center until you have approved membership and privileges at Santa Monica Hospital Medical Center.

Please contact me before any filming arrangements have been made if you have any questions. Thank you for your interest in Santa Monica Hospital Medical Center.

Sincerely,

Robert S. Lund
Senior Vice President
